

# GAZELLI ART HOUSE

## **MATTEO ZAMAGNI**

(B. 1992, CESENA, ITALY)

Matteo Zamagni is a new media artist based in London. He expresses his ideas through multi-media platforms : Video Direction, real-time and off-line graphics and interactive installations; The root of his projects comes from ongoing research into the connections between spirituality and sciences and the boundaries between the physical and the invisible dimensions; He observe the macro and micro scales of nature and speculates about it's invisible flows, as well as observing the conscious & subconscious mind. He also explore altered states of mind through meditation and sense hacking, breaking down the wide spread concept of "reality".
