Objective

I'm a Sicilian Designer.
Being a Designer in this land means having a particular point of view.
I live in a land full of art, culture and contradiction.
All my works came from this background.
Late Baroque is around me, here, in val di Noto, but what most caught my attention is the dynamism that live under it.
These people made an incredible collective artistic enterprise after a big earthquake.
The dynamism is still alive. Everything seems to stop but everything moves.
