

# Lizzy Forrester

**Lizzy Forrester** conducts an orchestra of resounding colors with each stroke of her brush. Her luminous and highly textured canvases reflect a deep admiration for the Impressionist painters, placing a strong emphasis

on the interplay of light on surfaces. But, Forrester's impetus for painting lies much deeper than a simple desire to render the rays of light as they cascade upon a placid pond or field of poppies. In fact, like a stream of consciousness poem or impromptu musical composition, Forrester's works serve as expressions of the artist's innermost thoughts and emotions. Her stunning landscape paintings resonate with a sense of calm and happiness, evidencing the artist's strongly influential spirituality. Her artwork serves primarily as a communicative tool, created by impulse and an inexplicable urge to paint, but also expresses the self-taught artist's innate understanding of color theory and sophisticated eye for spatial arrangements. Lizzy Forrester was born in Liverpool, England, but lives and works on the island of Ibiza in Spain.
