Очарована съм от духовността,  
която създават картините.

Пространството е наситено едновременно  
с тайнство и реалност,  
което създава усещането за  
космополитност. Усмивки скрита-  
ни на цветовете и техника.

Успех!

Доц. М. Любчева

on the right sight of the door : three fruits & one eye  
is very exciting for both of us.

all of them are very different from each other  
they are very experimental.

Some of them are lovely with lots of power  
Some are aggressive, or anxious

but they all are excellent because you begin  
to read it and try to understand you
