

ANDRA ROMAN

anul II master foto video

ARTISTIC CV

Born on August 7, 1992 in Baia Mare, Romania.

Romanian director, screenwriter, editor and photographer, currently an art student at the University of Arts and Design Cluj Napoca, majoring in photography and video art.

As a filmmaker, the best thing you can bring to the world is your own story. And there is something that is very personal to you, a part of you that people all over the planet will relate to. So, the mistake happens when you try to figure out what everyone likes because the only thing you can be sure of is what you like. And the reality is what you like ends up being what a lot of people like because we are all going through a very similar story.
